

# STOP THE SPREAD

## tips

01.

### WASH YOUR HANDS

Wash your hands for 30 seconds regularly or use gloves or hand sanitizer when a sink is not available.

02.

### FOLLOW PROPER SANITATION PROTOCOLS

Clean and Sanitize with Rescue as directed in protocols

03.

### DON'T BE A FOMITE

Don't let objects be exposed to pathogens and pass those pathogens on

04.

### KEEP WORK AREAS CLEAR AND CLEAN

Avoid cross contamination by keeping general areas clean

05.

### ISOLATE INFECTED ANIMALS

Recognize and report signs of illness and isolate infectious animals promptly.
